

PRACTICAL CHECK SHEET

Candidate: _____

Successful

Evaluator: _____

Unsuccessful

Date: _____

1006-SKILL-36

Standard:	NFPA 1006 – 2021 edition – 5.3.7
Task:	Climb and traverse natural features or man-made structures that require the use of climbing aids, positioning equipment, or fall protection systems to prevent the fall or unwanted movement of the rescuer
Performance Outcome:	The objective is achieved, the rescuer can perform the required task, and fall protection is maintained.
Conditions:	Given the equipment used by the agency, and a task that reflects the anticipated rescue environment
Candidate Directive:	“Using the provided structure, climb and traverse the indicated route using any necessary climbing aids, positioning equipment or fall protection systems”.

NO.	TASK STEPS	TEST	
		Successful	Unsuccessful
1	The objective was achieved		
2	The rescuer could perform the required task		
3	Fall protection was maintained
