Revised:	APRIL 26, 2021	PAGE 1 OF 2

1.0 GENERAL INFORMATION

- 1.1. **PURPOSE:** To provide a written, formal policy to ensure candidates are informed of the various written exam question formats and practical skills evaluations formats.
- 1.2. **RESPONSIBILITY:** It is the responsibility of all proctors and evaluators to be familiar with this guideline to ensure that candidates are properly and consistently informed of the various formats of written exams and practical evaluations that can be presented to the candidate. It is the responsibility of the Academy to ensure that this policy is clearly presented to and understood by all proctors and/or evaluators to ensure that all candidates are provided with consistent and fair instructions for the evaluation process.

2.0 PROCEDURES

- 2.1. Written Exam Evaluations:
 - 2.1.1. The proctor will inform candidates that all written exam questions will come in one of three (3) forms:
 - 2.1.1.1. multiple choice
 - 2.1.1.2. true or false
 - 2.1.1.3. matching
 - 2.1.2. Attached Tables 1 and 3 describe exam question selection.
 - 2.1.3. All written exam questions will be graded as one mark for each question.
 - 2.1.4. Candidates may be required to use reference material during the written evaluation process, for example: the candidate may be required to seek information from the Canutec guide book to complete their evaluation.
 - 2.1.5. The Academy will inform the candidates of marks as pass or fail and final percentage.
- 2.2. Practical Skills Evaluations:
 - 2.2.1. The evaluator will inform all candidates that practical skills evaluations may be conducted in one of three forms:
 - 2.2.1.1. individual skills evaluations
 - 2.2.1.2. hands-on field scenario-based team evaluations
 - 2.2.1.3. table-top scenario evaluation
 - 2.2.1.4. All candidates will be informed of marks as successful or unsuccessful immediately following the practical skills evaluation.

Revised:	APRIL 26, 2021	PAGE 2 OF 2

2.3. Product Assignments/Evaluations (please refer to Product Evaluations OG 5923)

2.3.1. The Academy has two programs where product assignments/evaluations apply:

- 2.3.1.1. NFPA 1021 Fire Officer Level I
- 2.3.1.2. NFPA 1021 Fire Officer Level II

2.3.2. Product assignments do not require supervision, however the candidates will be instructed that all product assignments are to be completed by the individual and shall be the candidate's own work.

2.3.3. Candidates will be given information on how to seek support from the Academy if assistance is required while completing product assignments.

2.4. Process Evaluations

2.4.1. The Academy has one program where product assignments/evaluations apply:

- 2.4.1.1. NFPA 1021 Fire Officer Level I

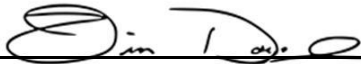

2.5. The cut score is an established score used by the Academy to determine unqualified candidates on any particular test or assessment. In employment testing, cutoff scores can be established to filter out job candidates who did not score high enough on a particular certification assessment.

2.6. The Academy has established cut scores for cognitive, psychomotor, product and process evaluations:

- 2.6.1. Cognitive exams 75%
- 2.6.2. Psychomotor evaluations 100%
- 2.6.3. Product evaluations 75%
- 2.6.4. Process evaluations 75%

2.7. Attached Tables 2 and 4 describe the evaluations specifications for:

- 2.7.1. Cognitive evaluations
- 2.7.2. Psychomotor evaluations
- 2.7.3. Product evaluations
- 2.7.4. Process evaluations
